

# What does Read Ahead do?

Transforms any digital content into a guided reading activity that can be viewed on any screen size.

Students or teachers can automatically transform any digital text into a reading presentation in seconds. This means it can be used at ALL levels and classes for reading assignments on any subject.

Finds key ideas for readers

Our Smart Skimmer is based on Artificial Intelligence that automatically chooses key words and phrases that will help readers get synapses firing off about concepts in passages before they read them. This front-loading technique is proven to help readers cross-reference, establish schema and make predictions.

## Presentation Tool

### Presentation Content

EXPORT AS RTF EDIT

Come, my friends,  
'T is not too late to **seek** a **newer world**.  
**Push** off, and sitting well in **order** smite  
**The sounding** furrows; for my purpose holds  
To **sail** beyond **the sunset**, and the baths  
Of all the western stars, until I die.  
It may be that the gulfs will **wash** us down;  
It may be we shall **touch** the Happy **Isles**,  
And see **the great Achilles**,  
Tho' much is taken, much abides; and tho'  
We are not now that strength which in old days  
Moved earth and heaven, that which we are, we are;  
One equal temper of heroic hearts,  
Made weak by **time**, strong as of old;  
To strive, to **seek**, to find, and not to yield.

Quickly integrates any Vocabulary list

Users can apply our Smart Skimmer, select from a library of standardized vocabulary lists, like Common Core, or flexibly choose all their own words and phrases.

Adapts to learners through authentic assessment

Read Ahead lets users choose key ideas and create reading presentations that can be compared by norms or criterion for adaptive adjustments to reading assignments and vocabulary reinforcement.
